

How To Fold A Paper Box

Do you remember how happy you were when you made some paper crafts at an early age? This paper box can hold some little tools in your office so that you do not need to worry about saving extra spaces for them. It is very easy to be made, and I guarantee that you can create one in 5 minutes! Let's get started!

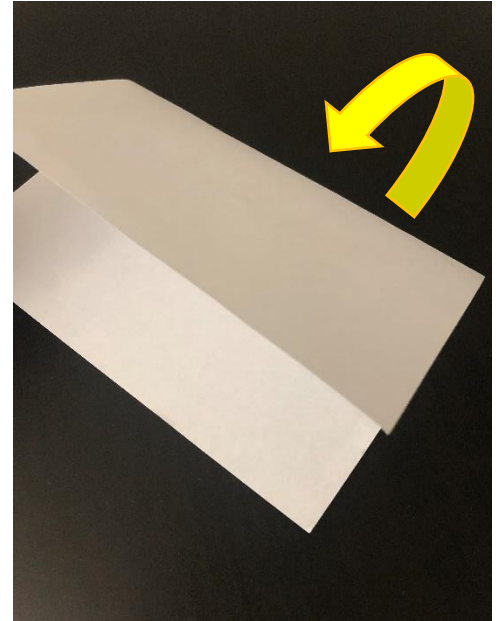

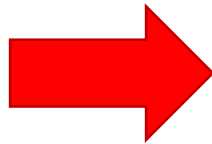

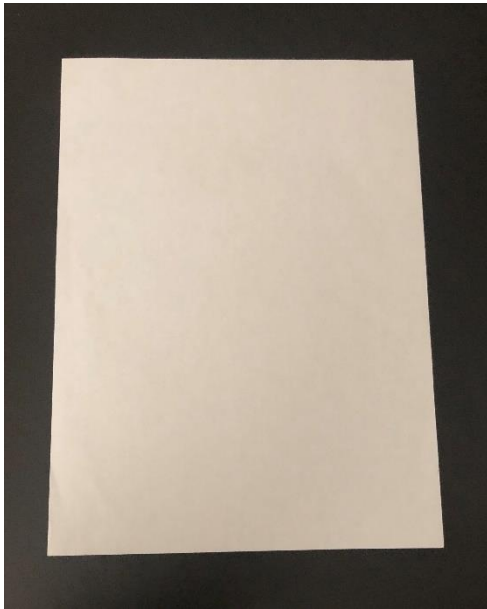

Prepare

- A piece of rectangular paper
- Two dry hands!

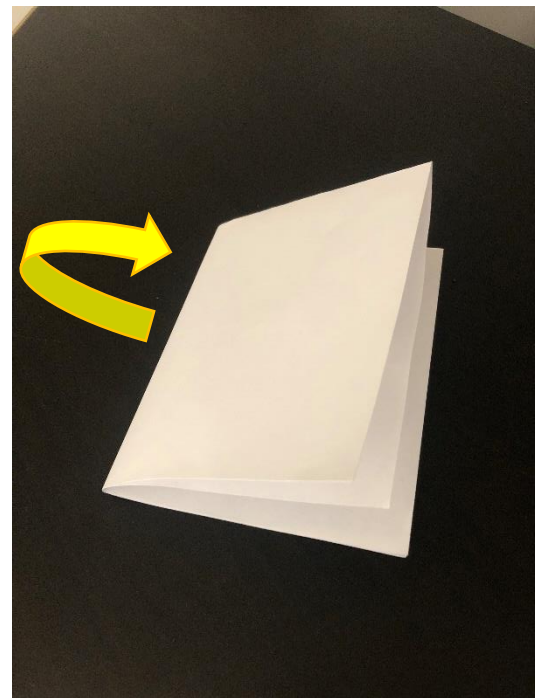

Step 1:

Fold a piece of paper into half.

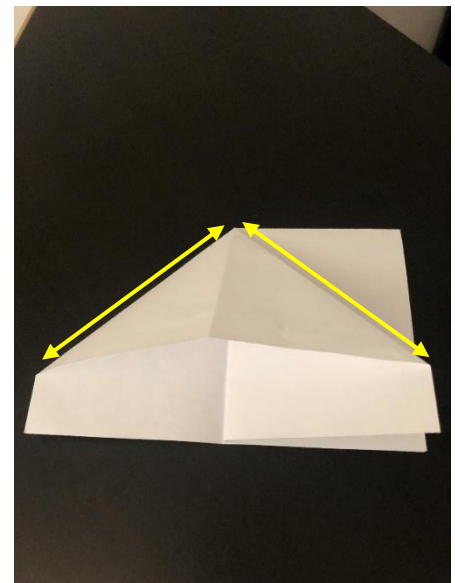

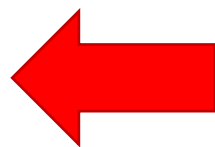

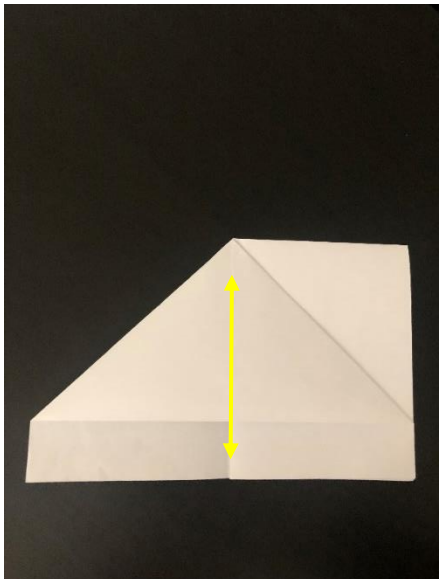

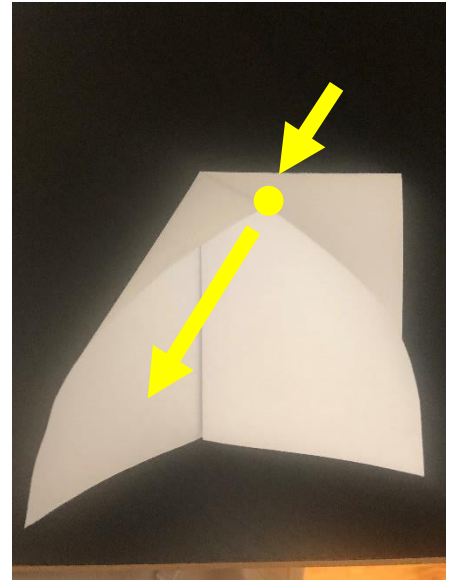

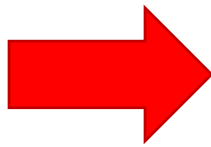

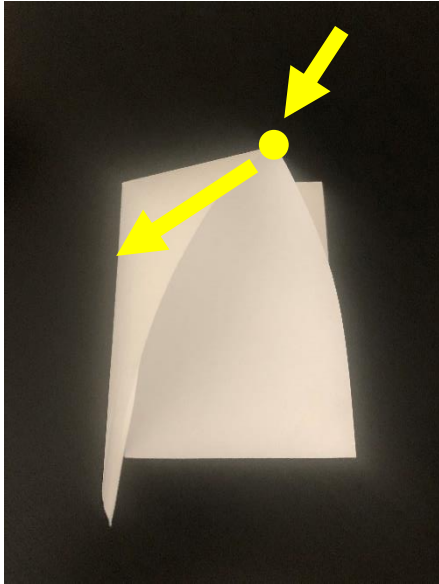

Step 2:

Fold the paper again.

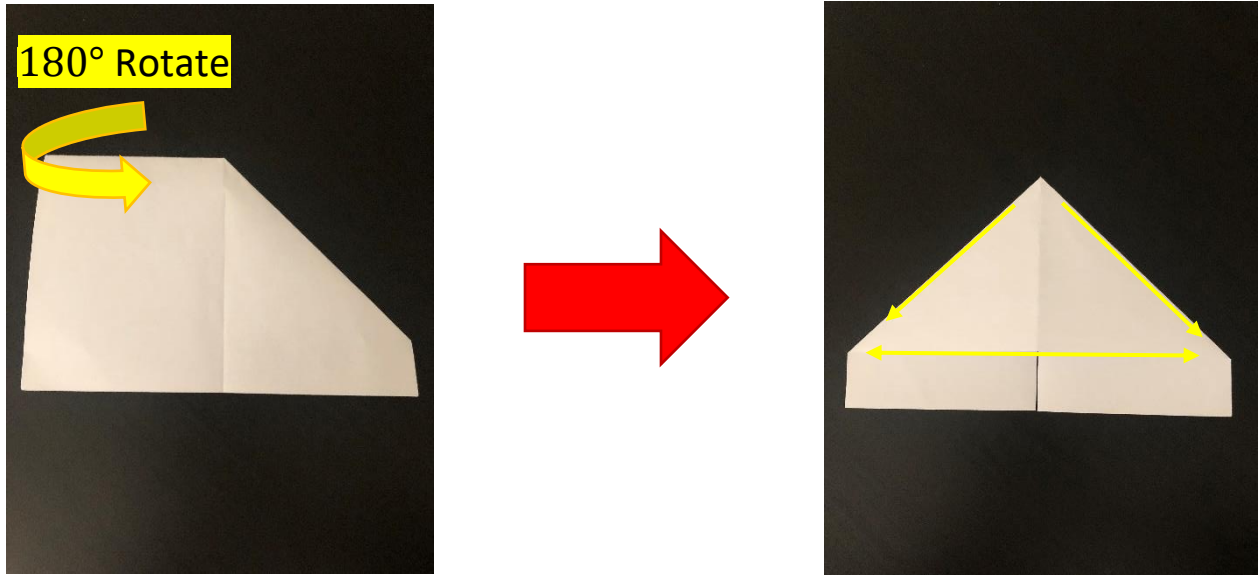

Step 3:

Hold upright corner and drag it to left side carefully.
Fold a triangle and keep the middle lines aligned.

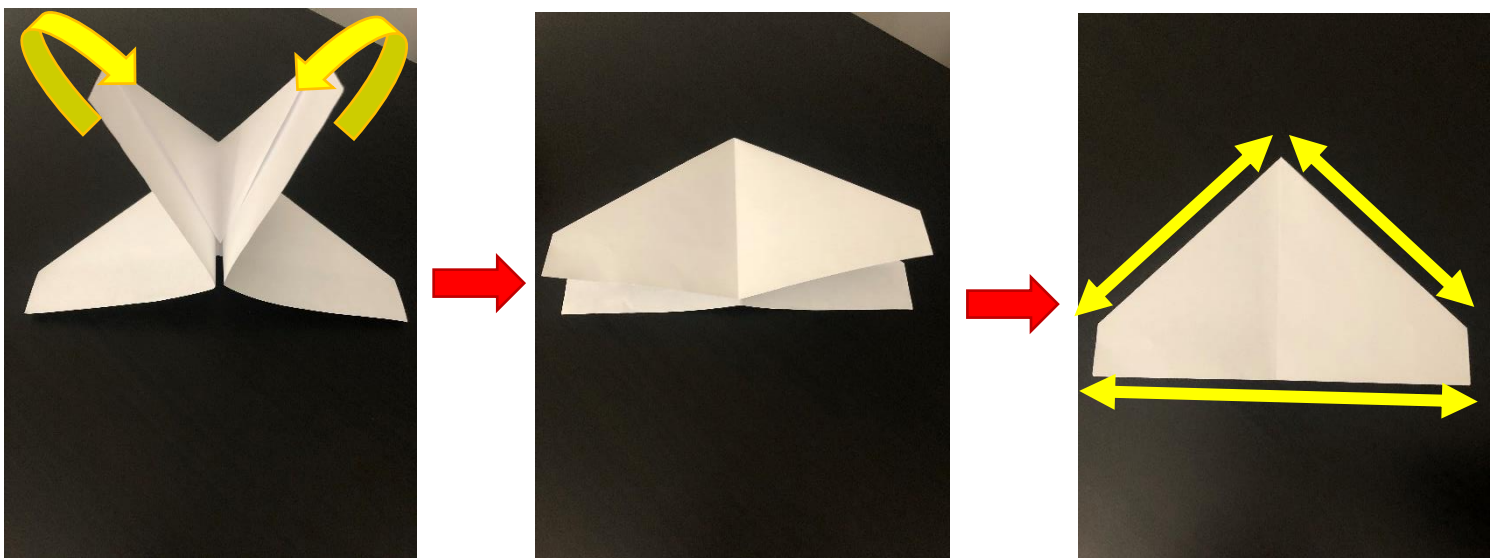

Step 4:

Rotate to the other side and repeat step 3 to make another triangle.

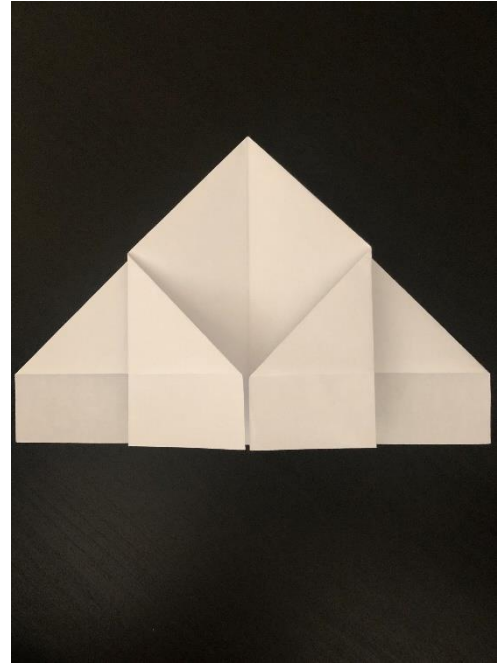

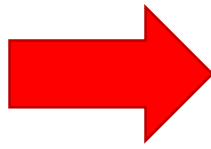

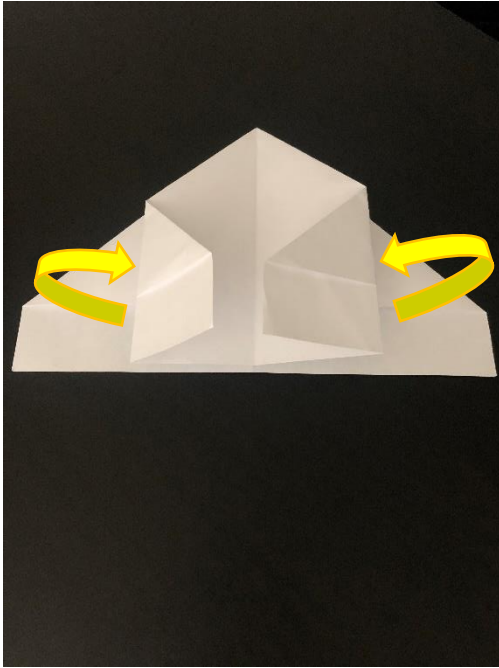

Step 5:

Flip to make both left and right sides open. At the same time, make top and bottom planes close.

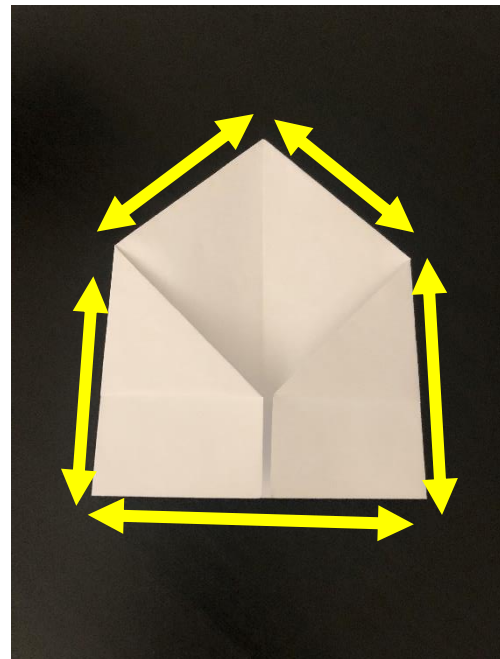

Step 6:

Fold left and right side to form a house shape.

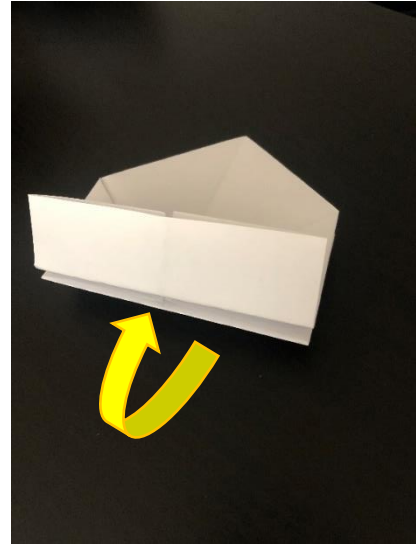

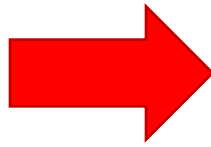

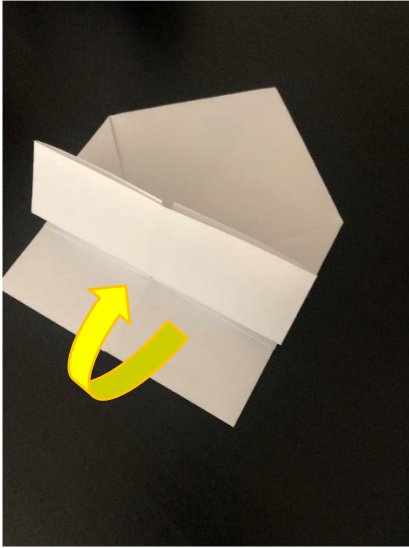

Step 7:

Rotate to the other side and repeat Step 6 to make a house shape again.

Step 8:

Fold the bottom of the house shape up for both sides.

Step 9:

Now is magic time! Open the box by stretching the center. Flatten the bottom of paper box. Done!!!
